

EBS
UNIVERSITÄT

Leadership
for tomorrow.
Made by EBS.

MEMBER OF SRH

WELCOME TO EBS UNIVERSITÄT.

We shape the future. Since 1971. Successfully.

The future does not just happen. We shape it. To master the challenges of today and tomorrow, we must take responsibility for creating change. And to achieve this, we rely on solid knowledge and people with an understanding for values, who take a stance, are courageous and ready to make a difference. It is the managers and executives of tomorrow who study with us today.

PEOPLE
ARE NOT
BORN STRONG
LEADERS.
BUT GIVEN
THE RIGHT
ENVIRONMENT,
STRONG
LEADERS GROW.

Tomorrow's leadership. What characteristics and attitudes will the people who shape our future need? EBS Universität believes it knows: backbone, character, sense of duty, courage and the ability to think and act in international contexts.

The only people who'll be able to achieve things tomorrow are people who can inspire today. Tomorrow's elite will be different: more responsible, more innovative and more driven by sustainability. It's them who will make the difference. And at EBS, you will mature into someone who leads the way.

ARE YOU READY TO MAKE A DIFFERENCE?

OTHERS
IMPART
KNOWLEDGE.
WE
INSPIRE.

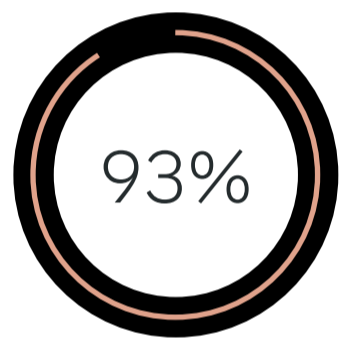

OUR ORIGINS

Silicon Valley started in a garage. EBS began in a shoe factory.

It all started in 1967 in an empty shoe factory in Paris, with 17 highly motivated students and the vision to establish a private business school that would make a difference. EBS founder Professor Klaus Evard and his fellow thinkers envisaged a place where young entrepreneurs from all over the world could become the people who shape our society: international, multilingual, personally ambitious, professionally capable and courageous in business. This spirit is firmly embedded in our DNA and continues to shape and sustain EBS to this day.

»A clear vision and cosmopolitan farsightedness are what our founder Professor Klaus Evard gave us. In doing so, he paved the way for so many other pioneers and successes.«

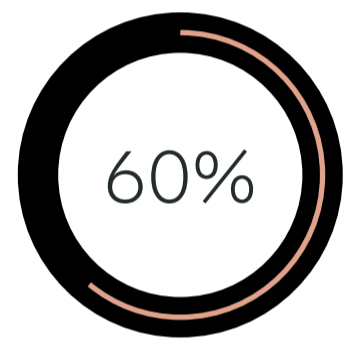

Günther H. Oettinger, President

Almost all of our students receive their first job offer while still studying or within three months of graduation.*

THE UNIVERSITY MANAGEMENT

Committed to
our mission

Empowering you to make
a difference in the world.

OUR ACADEMIC ASPIRATIONS

We'll give you everything
so you can make
more of yourself.

Success isn't just about professional excellence. You have to come up with more than that if you want to make a mark in the world. You need competence and personality. We consider it our mission to provide our students not only with academic knowledge, but also with practical skills and strength of personality. That's why we look so closely at those things when selecting our candidates.

» Our university delivers a holistic education, because our graduates have to take on leadership and social responsibility within a highly dynamic environment. The soft skills we teach at our coaching sessions are just as sought-after as intellectual and methodological skills. «

Marie-Luise Retzmann, Head of Coaching

CHALLENGE-BASED LEARNING

Our best teacher: life.

We treat theory as the first step toward practice. That's why our students work closely with corporations and law firms on real business case studies and go on field trips to experience the actual challenges our partners face. This invaluable practical knowledge forms the basis for developing competence on multiple levels. Real-life projects and teamwork strengthen essential skills such as critical questioning, problem-solving, cross-cultural work and, of course, communication and presentation skills.

COACHING AND LEADERSHIP HUB

We take personal development personally.

We give students the tools they need to develop as leaders. Our Coaching and Leadership Hub draws on 20 years of experience and its curriculum incorporates the latest findings. Specially trained coaches support students individually so that they can grow their strengths. The focus is always on what they bring to the table and their personal goals. We also impart soft skills like teamwork, time management, and abilities like empathy and creativity.

A young man with short, dark, curly hair and glasses is smiling and looking down and to the right. He is wearing a dark blue button-down shirt. The background is a plain, light-colored wall.

A STRONG NETWORK

We don't teach relationship management, but it's integral to EBS.

Strong partnerships and networks are a crucial foundation for professional success and the development of a leadership personality. We encourage these things and offer our students excellent connections in business and worldwide networking activities. Driving this is the thirst for action that unites us all, far beyond our studies, and forms bonds that last a lifetime.

3,400

members

Our alumni support our students on many levels. They pass on their knowledge, give advice based on practical experience, and often open up career pathways for them.

OUR ALUMNI NETWORK

Become part of a big family.

Cohesion, contacts and conversation: Our alumni network is highly influential with over 3,400 members in more than 30 countries. It's one of the oldest private university alumni associations and, as a shareholder of EBS, is involved in major strategic decisions. Our alumni remain closely connected with us. They pass on their varied professional and industry experience to our students at events such as our annual Homecoming and workshops on different themes. EBS Alumni Studienstiftung has supported our students' development both intellectually and financially since its inception in 1980.

200

strong partners
at your side

Our alliances range from NGOs to small and medium-sized family businesses, renowned commercial law firms, well-known consultancies, and major global corporations.

OUR PARTNERS IN THE ECONOMY

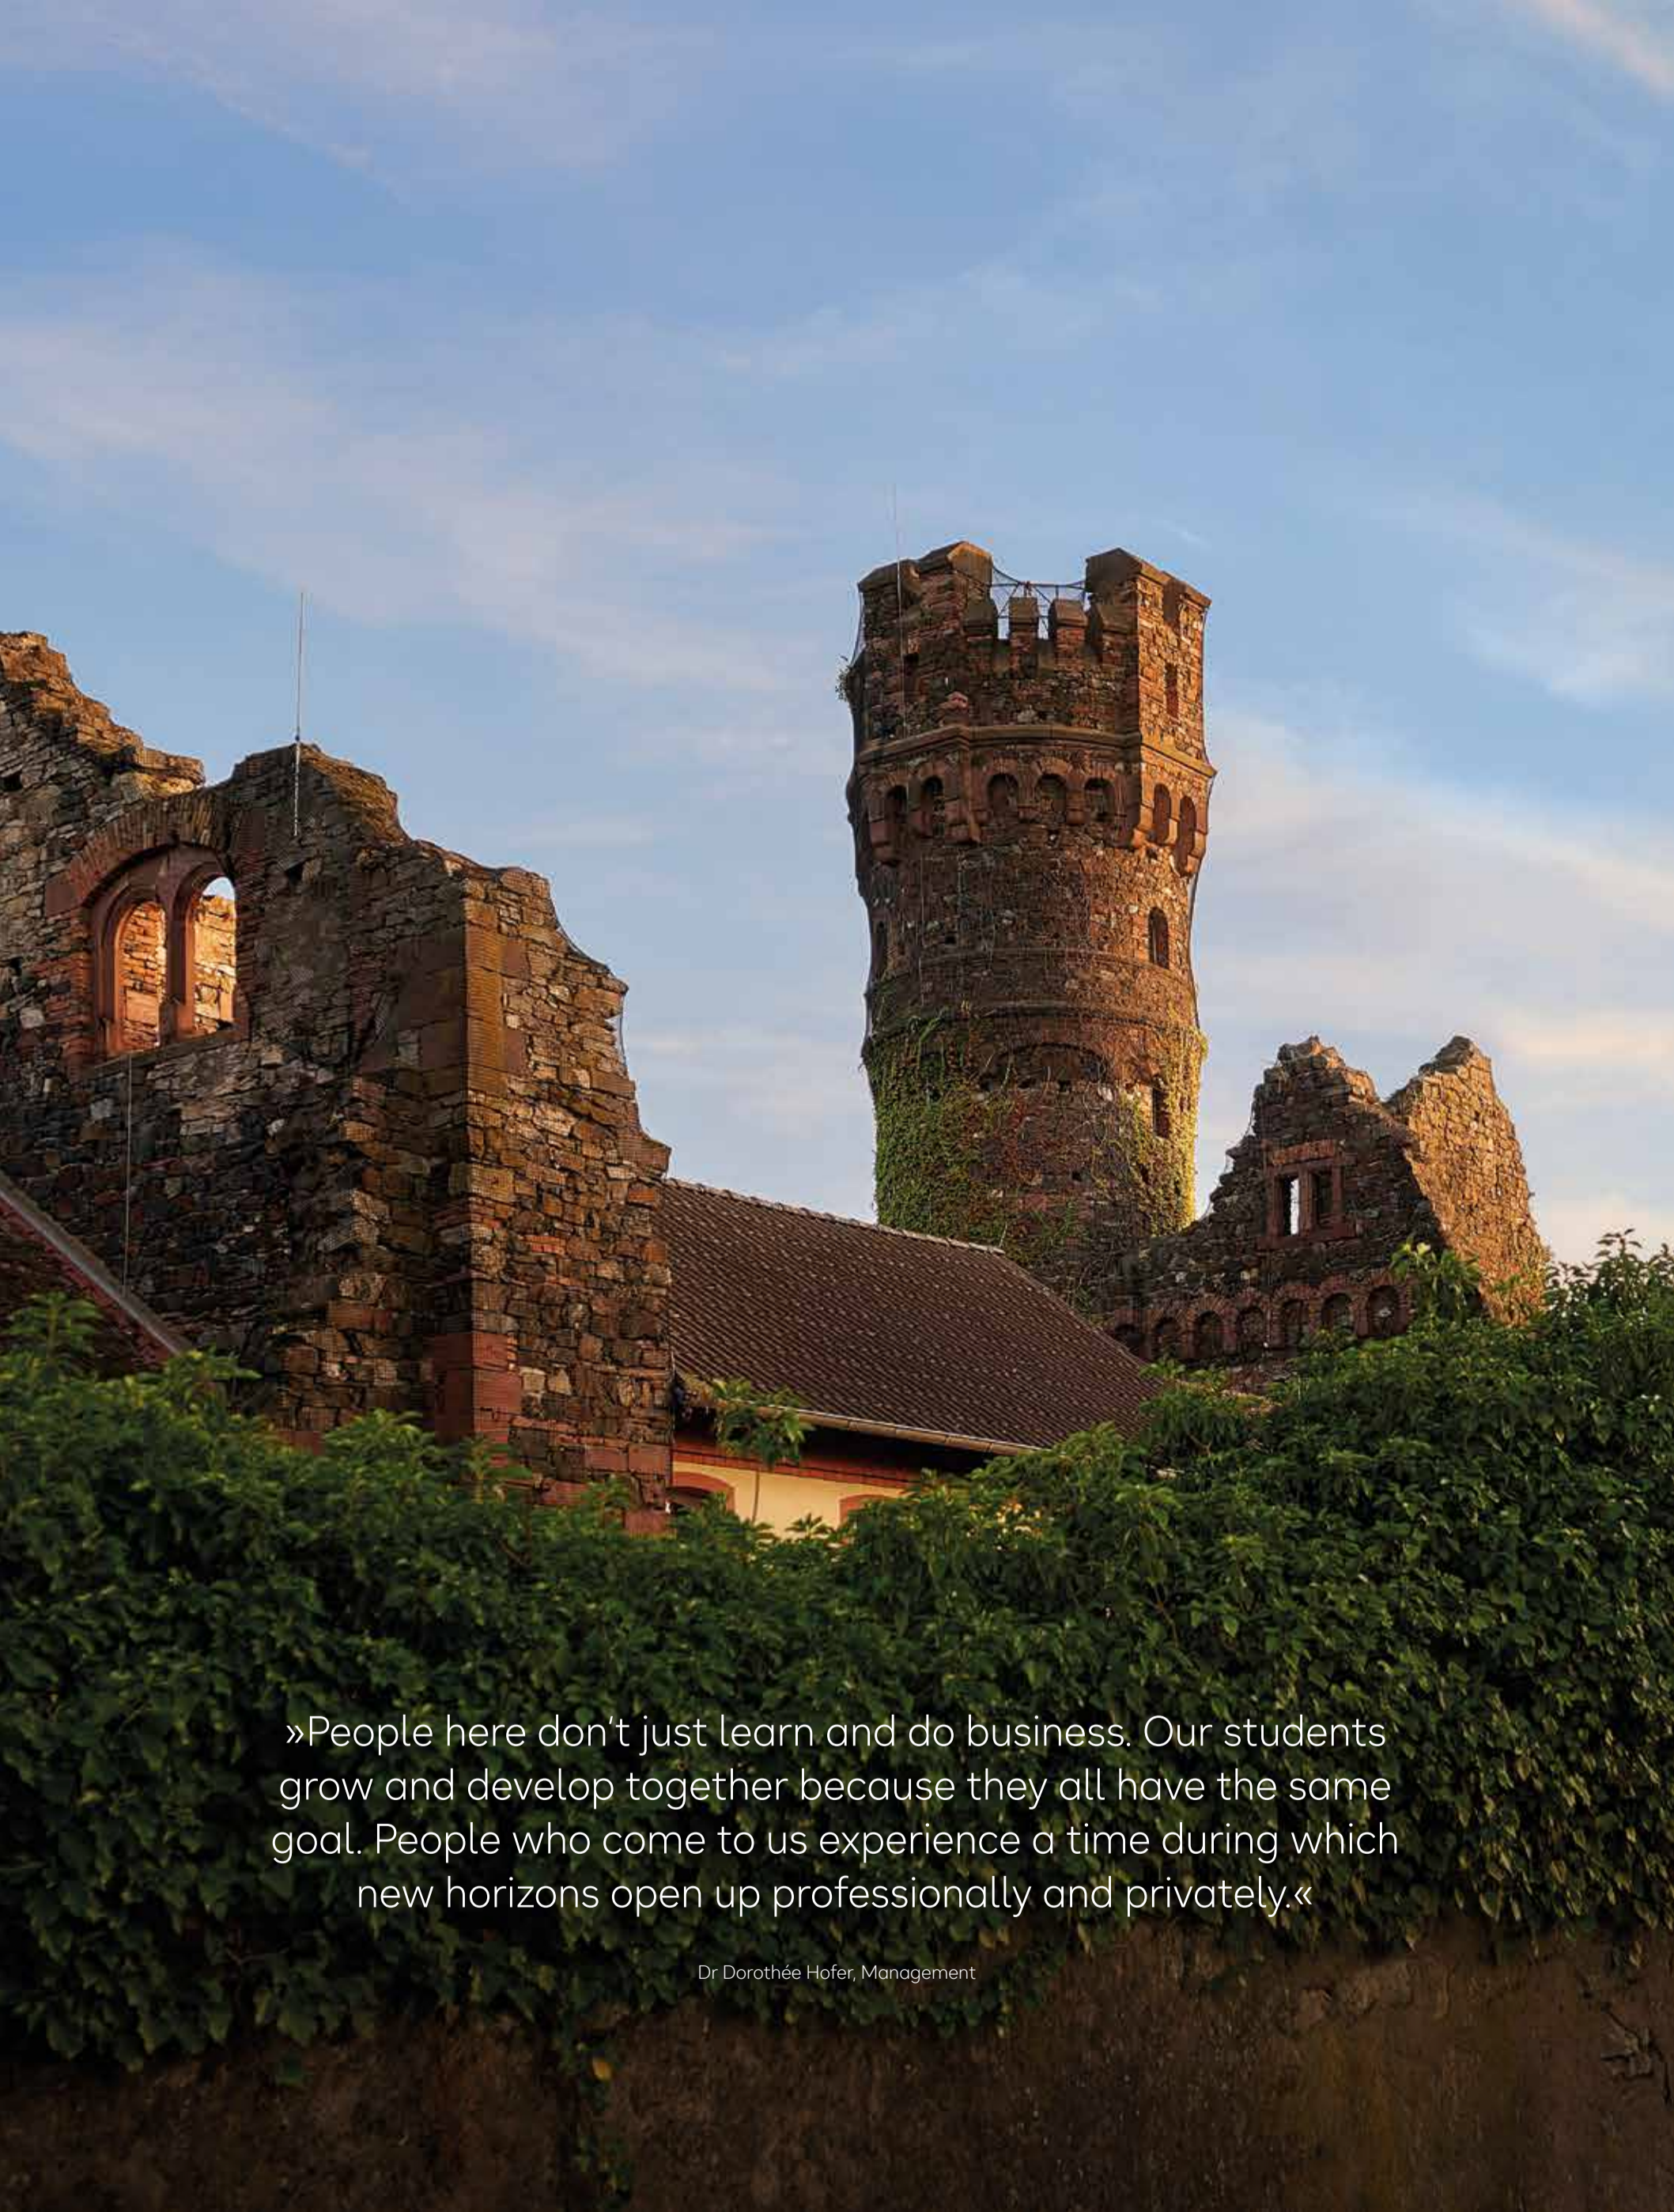

We take economics literally.

Only those who experience the demands and challenges of today's and tomorrow's economy can understand them and find solutions that bring about lasting change to our world. We have always ensured that our students can access a top-class network of corporate partners. From the very outset, we place people at their side who can help them advance in their careers. Mentors from over 200 partner companies and law firms accompany them along the way. Our partners' knowledge, experience, ways of working and, above all, innovative ability in various fields and industries inspire and motivate our students to follow their paths.

OUR CAMPUS

A place the best
call home.

»People here don't just learn and do business. Our students grow and develop together because they all have the same goal. People who come to us experience a time during which new horizons open up professionally and privately.«

Dr Dorothee Hofer, Management

Schloss Reichartshausen has been home to EBS since 1980. Its location and ambience make the estate an extraordinary place indeed. Two thousand students think, learn and live here in an atmosphere close to American college culture. Like America's elite universities, EBS offers exceptional teaching of an outstanding calibre, but also a life-shaping campus experience. Every student who embarks on their path to a successful future with us feels this. There's plenty of room for doers.

OUR HOME

Where change begins.

ROOM FOR DOERS

Our campus.
This is where we
change the future.

Outstanding academic teaching against a historical backdrop with high recreational value – that's what our site has to offer. EBS Campus Schloss in Oestrich-Winkel is situated in the Rheingau, one of Germany's most beautiful holiday regions. Study here surrounded by vineyards, right on the Rhine and close to Frankfurt Airport's international hub, the student city of Mainz and the Hessian state capital, Wiesbaden. Location, landscape, ambience and atmosphere combine to produce an inspiring learning environment.

SPACE TO THINK AND DO

If you want to achieve great things, you need space to develop.

And you need places where ideas can emerge and grow. Our campus provides precisely the kind of energetic space needed for thinking and doing. We combine world-class facilities and a historical ambience with cutting-edge architecture and technology. Our campus offers everything students need to develop great ideas and gain game-changing research insights that will advance the economy and society.

Progress is a constant here. And we're constantly evolving, whether it's about teaching, research or our future. That's why sustainability is written big here. We're making our campus greener and more car-free, creating more space for the latest kinds of blended learning, training and collaboration.

ROOM FOR TOGETHERNESS

Be part of the change.

Teams always trump individuals. That's why we focus on collaboration from day one. We encourage our students to work together and motivate them to grow with others in real teams. Working in student initiatives, they organise conferences together, interact socially, play sports, get stuck into fintech and even make their own wine. This instils a sense of belonging and creates the unique bond that makes us an academic alliance for life – the EBS family.

UNLEASH
YOUR FULL
POTENTIAL.
TOGETHER
WITH
THE BEST.

We take you to the front.
The very front.

EBS BUSINESS SCHOOL

»The Business School still sustains itself from its founding vision: international foresight and extremely close networking with businesses. Our excellence in research and teaching is not an end in itself. It aims to impact the world of business and society.«

Professor Christian Landau, Dean of the EBS Business School

Strategy, organisation and leadership. Finance, innovation, entrepreneurship and social business. Sustainability, technology management and digitalisation. These are the current trends in leadership. And they're at the heart of our research and teaching. We always give precedence to a global perspective by attracting professors and guest speakers from all over the world, nurturing our international student community, being part of an interdisciplinary research community and maintaining unparalleled links with corporate partners and top universities. But what makes us genuinely unique is our alumni network, so many of whom achieve great things. They remain committed and close to EBS long after they finish their studies.

As an academic institution and a fully-fledged private university, EBS covers the entire academic spectrum with its courses – from initial degrees to habilitation.

Bachelor in business administration (BSc) / Master in business administration (MSc or MA) / MBA / Doctorate / Habilitation

EBS BUSINESS SCHOOL

EBS LAW SCHOOL

»Our ambition is to train tomorrow's leading lawyers. You need outstanding exam results, but we also know how important it is to strengthen personalities so that people can grow to become more than they already are.«

Professor Ulrich Segna, Dean of the EBS Law School

Boldly breaking new ground and rigorously pursuing goals is the vision that has allowed us to revolutionise the study of law in Germany. Since we were founded, we've worked alongside partners like Clifford Chance, Linklaters and Gleiss Lutz. They set the requirements for people entering the profession. We develop academic responses. And we do so by constantly intermeshing the worlds of law and business, because we know that is what will advance our lawyers in the world of business. And because over 60 percent of our students graduate with honours, we're the leaders in Germany – which means they enjoy excellent career prospects.

EBS Law School aspires not only to be the most innovative law faculty, but also to be academically outstanding.

**Law Studies (First Legal Examination) / Bachelor of Laws (LLB) / Bachelor of Arts (BA)
Doctorate / Habilitation**

EBS EXECUTIVE SCHOOL

» We're committed to lifelong learning in executive education. Because in a dynamic VUCA world, we know how important it is for professionals and leaders to keep developing their personal aptitudes and those of their teams.«

Professor Kai Förstl, EBS Executive School Director

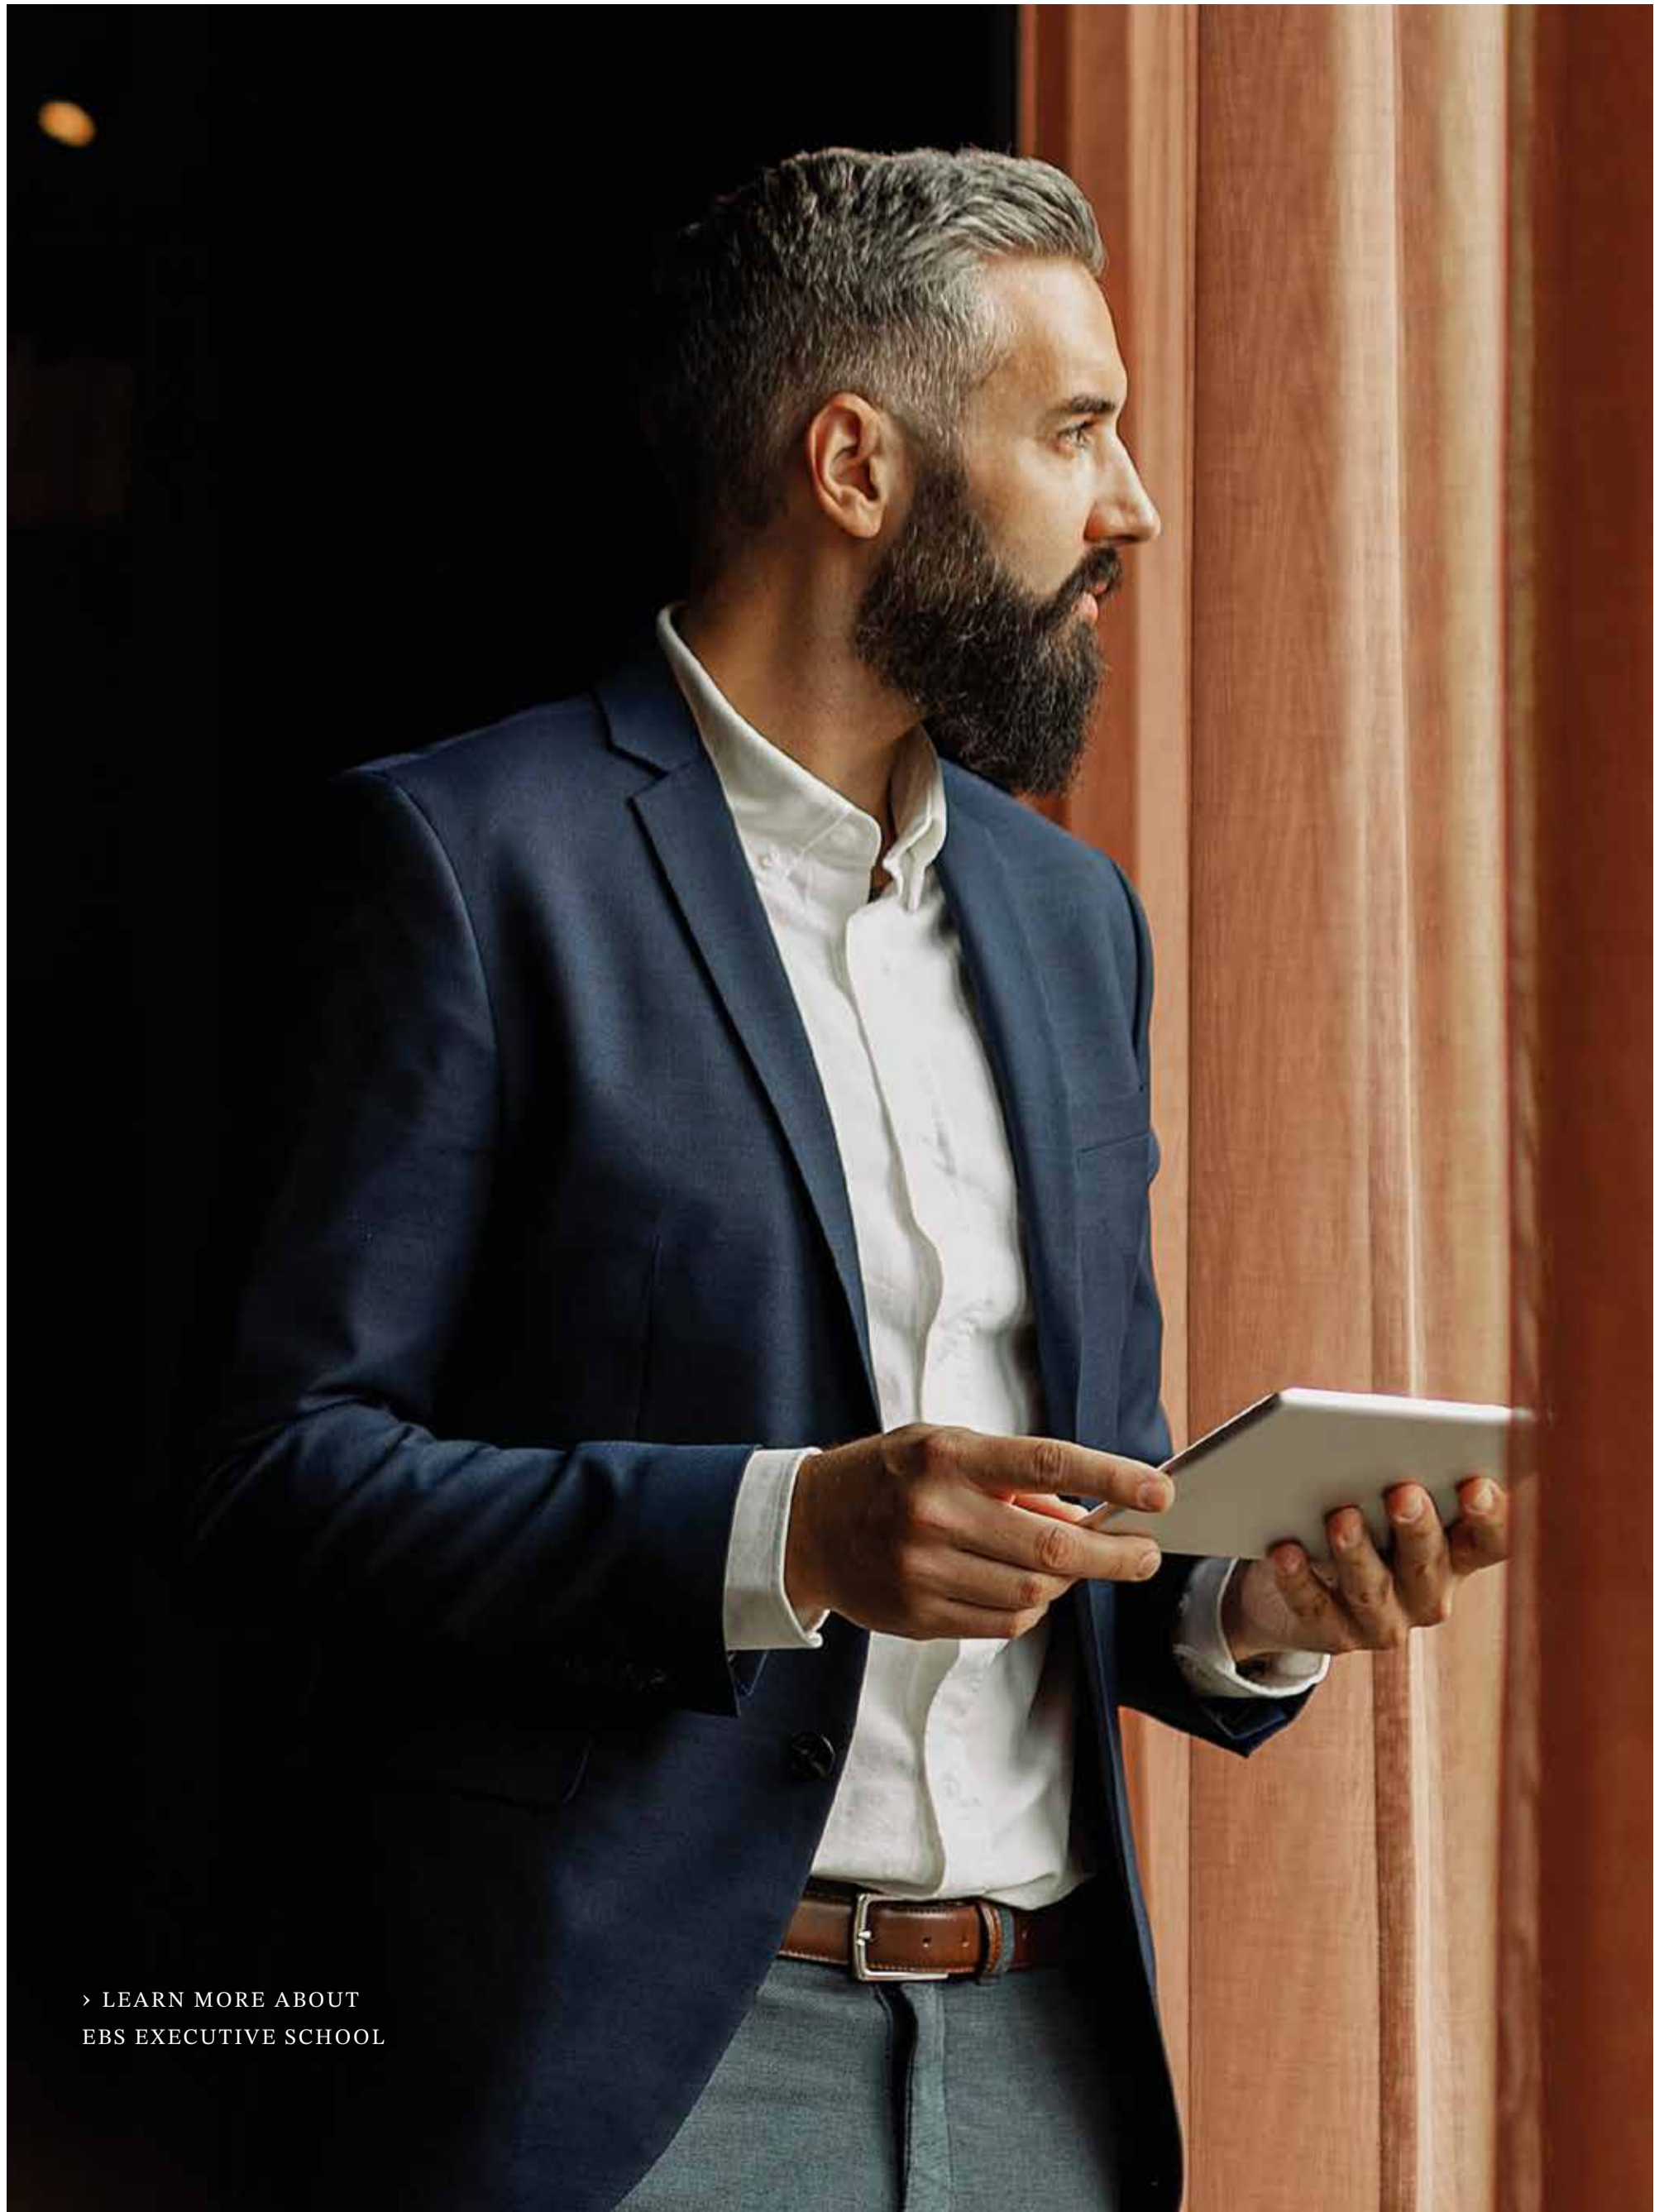

We need personalities who can convince others because of what they know. That's why we guarantee first-class higher education in business and law. Our focus is on megatrends like digitalisation, new work and sustainability, as well as other social challenges. We offer a wide range of certification programmes based on the latest research and technological developments. And of course, we also provide tailored corporate programmes which address the particular requirements and needs of a business and its people.

EBS Executive School is committed to lifelong learning and offers a wide range of higher education programmes in the following fields:

**Management / Marketing / Real Estate Management / Sustainable Finance /
Finance and Wealth Management / Coaching and Leadership / Digital Transformation**
